Lifelizabeth Properties is a privately held real estate company which was primarily established to focus on rental, sales and management for both public and private sectors in South Africa.

We are not confined by traditional real estate boundaries when it comes to buying, selling and renting, instead we are always coming up with new innovative ways to satisfy our client's needs while providing the best value for their money. We are hands on when it comes to visiting the sites for approval, and make sure that all properties are in good condition, location and perfect view before showing it to our clients. We also work continually to interpret and act upon economic forces in the marketplace. With every transaction, we stress on creative solving coupled with judicious application of sound real estate principles.
